3 DAY

PREPARE FOR DA-100: Analyzing Data with Microsoft Power BI

Get the training needed to pass your DA-100 exam!

LEVEL:

INFO AND BOOKINGS:

Phone: +31 614 989181

E-mail: info@dimpbi.com

PROGRAM: PREPARATION FOR DA-100: Analyzing Data with Microsoft Power BI

TOPICS ADDRESSED INCLUDE:

Day 1

- Get Started with Microsoft Data Analytics
- Prepare Data in Power BI
- Clean, Transform and Load Data in Power BI
- Design a Data Model and create Measures in Power BI

Day 2

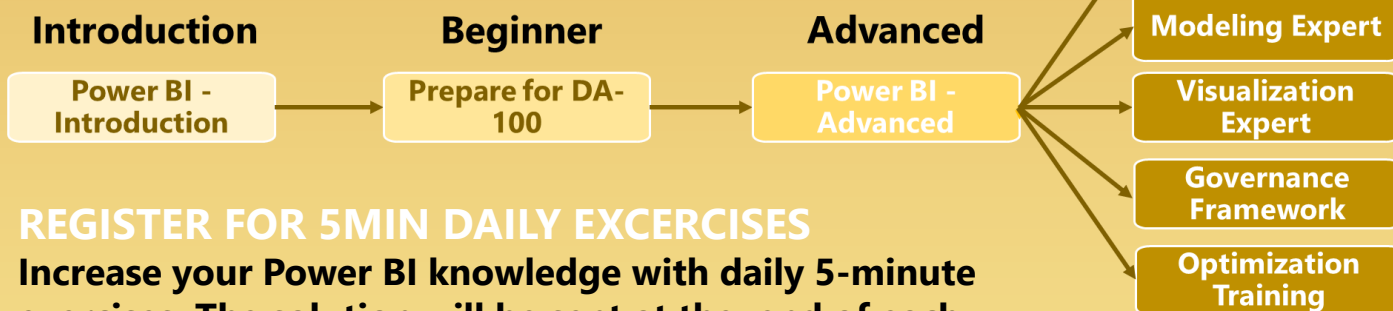

- Optimize Model Performance
- Create Reports and dashboards
- Create Paginated Reports

Day 3

- Perform Advanced Analytics
- Create and Manage Workspaces
- Manage Datasets in Power BI
- Row-level security

WHAT IS NEXT?

Take your skillset to the next level, follow our roadmap!

REGISTER FOR 5MIN DAILY EXERCISES

5 DAY

TRAINING: POWER BI - ADVANCED

Take your Power BI skillset to the next level!

Learn about multi-fact modeling and advanced visualization techniques.

LEVEL:

INFO AND BOOKINGS:

Phone: +31 614 989181

E-mail: info@dimpbi.com

PROGRAM: POWER BI – ADVANCED TRAINING

TOPICS ADDRESSED INCLUDE:

Day 1

- Power BI Development best practices
- Visualizations best practices
- Advanced visualization techniques

Day 2

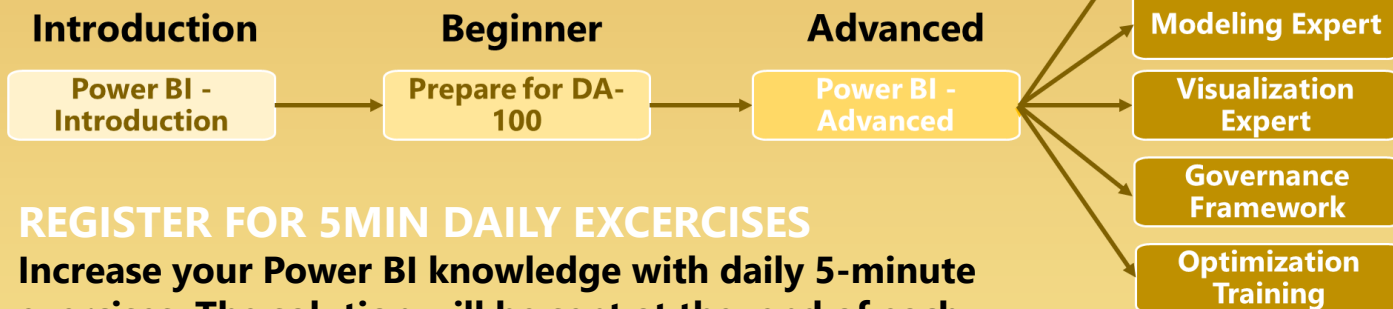

- Data modelling in Power BI
- Working with multiple fact tables
- Querying with DAX
- Advanced analytics with DAX

Day 3

- Row-level Security
- Build your Power BI solution for Q&A
- Share and collaborate on Power BI solutions

WHAT IS NEXT?

Take your skillset to the next level, follow our roadmap!

REGISTER FOR 5MIN DAILY EXERCISES

3 DAY

POWER BI – DAX EXPERT

Become a DAX expert!

Learn about advanced time intelligence, new and returning customers and much more.

LEVEL:

INFO AND BOOKINGS:

Phone: +31 614 989181

E-mail: info@dimpbi.com

PROGRAM: POWER BI – DAX EXPERT

TOPICS ADDRESSED INCLUDE:

Day 1

- Measures and calculated columns
- Scalar functions
- Variables & Time Intelligence in DAX
- Table functions

Day 2

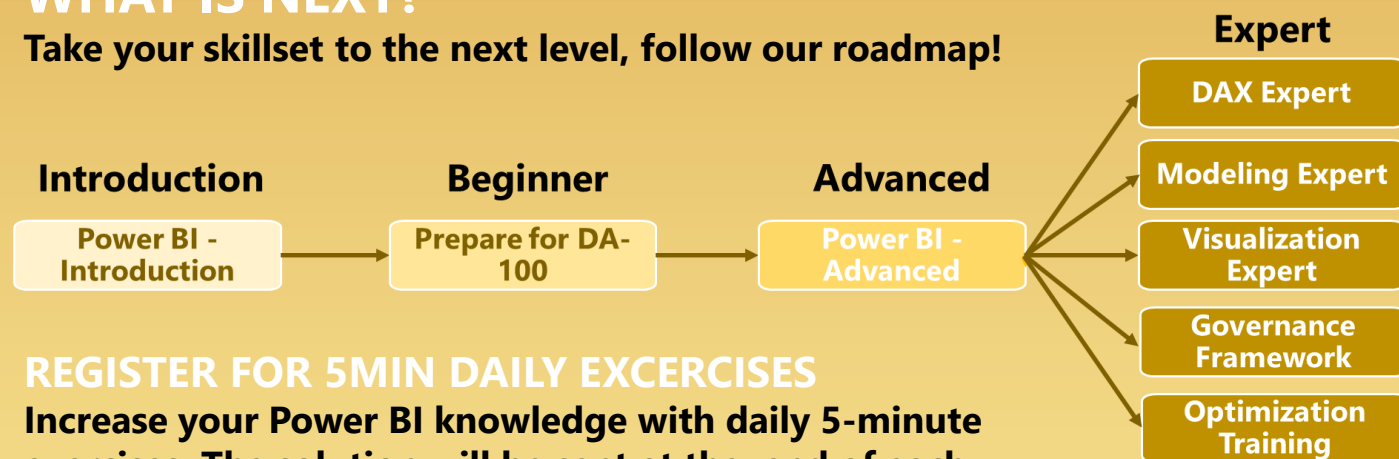

- Evaluation context
- Filter & Row context
- Iterators
- Creating Tables and Querying in DAX
- Hierarchies in DAX

Day 3

- Handling many-to-many relationships
- Bidirectional filtering
- Handling different granularities
- Calculation groups

3 DAY

POWER BI- DATA MODELING EXPERT

Are you an advanced Power BI user and want to learn more about Modeling?
Follow this expert training!

LEVEL:

INFO AND BOOKINGS:

Phone: +31 614 989181

E-mail: info@dimpbi.com

PROGRAM: POWER BI – DATA MODELING EXPERT

TOPICS ADDRESSED INCLUDE:

Day 1

- Normalization and denormalization
- Facts and Dimensions
- Relationships
- Star Schemas

Day 2

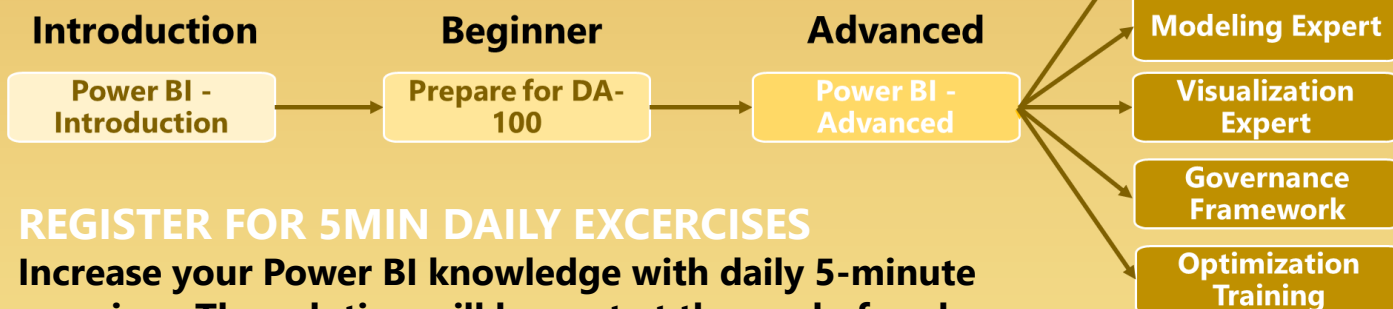

- Snowflake schemas
- Working with Date dimensions
- Working with different Fiscal Periods
- Multi-fact Modeling

Day 3

- Many-to-Many relationships
- Budgets & Targets
- Modeling tables with different granularities

WHAT IS NEXT?

Take your skillset to the next level, follow our roadmap!

3 DAY

POWER BI- DATA VISUALIZATION EXPERT

Are you an advanced Power BI user and want to learn more about Visualization?
Follow this expert training!

LEVEL:

INFO AND BOOKINGS:

Phone: +31 614 989181

E-mail: info@dimpbi.com

PROGRAM: POWER BI – VIZUALIZATION EXPERT

TOPICS ADDRESSED INCLUDE:

Day 1

- Vizualization's best practices
- Create your color pallet
- Create your Power BI theme
- Create a Power BI template
- Build your intro page

Day 2

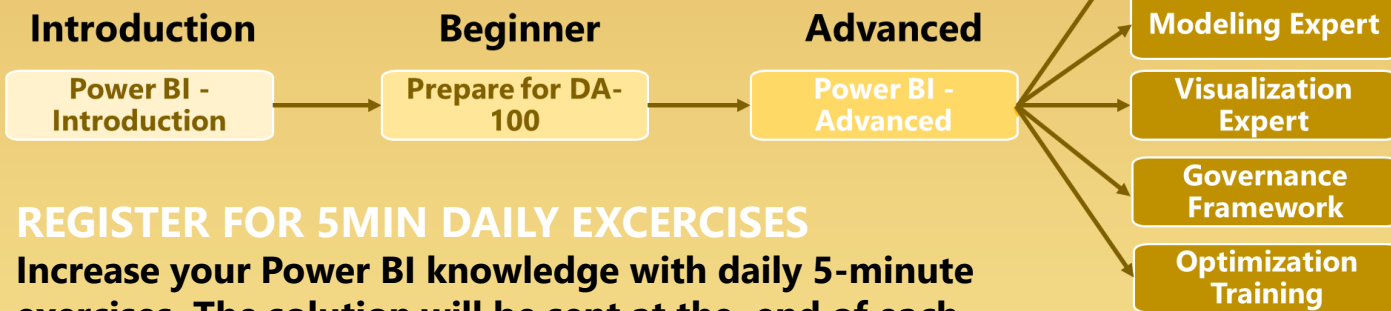

- Working with Power BI visuals
- Working with Custom visuals
- Advanced Vizualization techniques

Day 3

- Mobile-friendly dashboards
- Bookmarking use-cases
- Build intuitive clips and videos into your Power BI solution

WHAT IS NEXT?

Take your skillset to the next level, follow our roadmap!

REGISTER FOR 5MIN DAILY EXCERCISES

3 DAY

POWER BI- OPTIMIZATION TRAINING

In this training we'll teach you how to optimize your modeling, DAX, queries and measures for the best performance.

LEVEL:

INFO AND BOOKINGS:

Phone: +31 614 989181

E-mail: info@dimpbi.com

PROGRAM: POWER BI – OPTIMIZATION

TOPICS ADDRESSED INCLUDE:

Day 1

- Presentation of Optimizing your report
- Best practices for optimal performance
- Measuring performance

Day 2

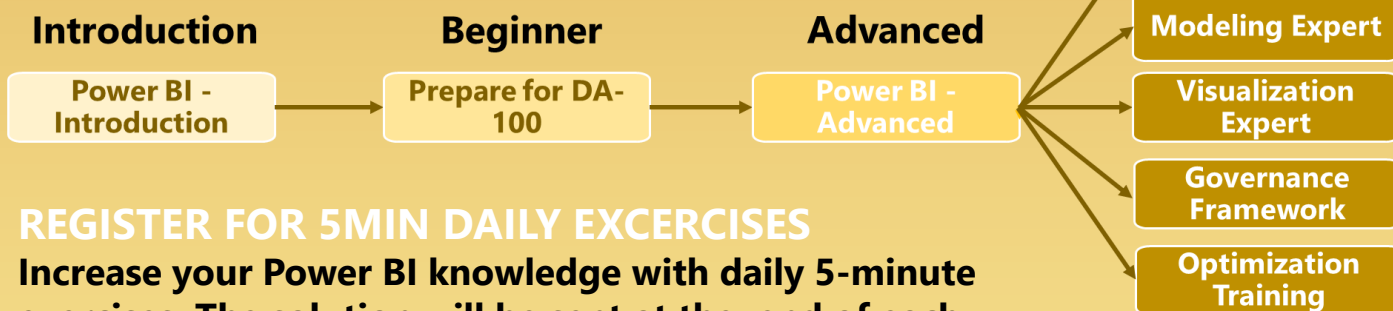

- VertiPaq engine
- Analyze query performances

Day 3

- Optimize large models
- Advanced optimizations

WHAT IS NEXT?
